

# AGRICULTURE & FORESTRY

## Recommended Frames

### 601 Jesse

Modern style plastic wrap frame with semi-seal foam insert, large lens diameter providing perfect vision all around.

### 702 Ranger

Full coverage above, beside and underneath the eyes for extra safety against wood splinters, metal fragments and finer particles.

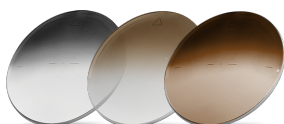

## Recommended Lens Coatings

BPI TINT G15: Transmits all colours evenly, reduces glares and brightens shadows.

POLARISATION: NuPolar lenses block blinding glare, enhance visual acuity and colour.

Block 100% of harmful UVA and UBA.

IOAC's Certified Prescription Safety Eyewear provide clear, distortion free vision with superior quality optics.

Farm activities such as grinding or cutting metal, welding, drilling, animal related tasks and chemical exposures are all potential hazards for eye related injuries.

IOAC's anti-fog, anti-glare technology increases farm productivity, making it easier to operate machinery and look through windscreens.
